Typology of Calls

PhD Studentships

- All scientific areas
- **Regular Line** – Scientific and Academic Institutions (HEI, Research Units, AL, …)
- **Specific Line** – Non-academic institutions (Companies, CL, Interface Centres, Public Entities, …)

Fellowships in the scope of protocols and partnerships

- A set of protocols with institutions dedicated to scientific research and technological development in thematic areas).

- MIT, CMU, …

Specific Programmes

- Specific Programmes for short-term advanced Training

- Fellowships Fulbright for research

- Fellowships for technology internships (NASA, CERN, ESA, …)

PhD Studentships

1450 Fellowships

- All scientific areas

- **Regular Line** – Scientific and Academic Institutions (HEI, Research Units, AL, ...)

- **Specific Line** – Non- academic institutions (Companies, CL, Interface Centers, Public Entities, ...)

1050

400

Advantages

PhD Students	Non-Academic Entities	Academic Entities
Scientifically guided by an interdisciplinary guidance team	**Host researchers with a high scientific profile contributing to solve problems of these entities and have a significant level of innovation**	**Enhance collaborations and the transfer of knowledge and technology to the business community and/or public administration sectors**
Advanced training in relevant areas to both academia and business	**Develop a strategic project for the entity, in close collaboration with an academic entity**	**Offer diversified training in science, technology, and innovation**
Enjoy international stays and participation in national and international events	**Encourage the development of future funding proposals at the international, national, and regional levels**	**Interdisciplinary and intersectoral teams for the submission of projects to funding agencies**
Increase employment opportunities after PhD	**Does not involve costs for the entities that join the program**

2023 Call for PhD Studentships

As Bolsas de Investigação para Doutoramento destinam-se a financiar a realização, pelo bolseiro, de atividades de investigação conducentes à obtenção do grau académico de doutor.

Overview and objectives

No âmbito da prossecução de uma política pública de formação avançada assente na investigação com relevância social, a Fundação para a Ciência e a Tecnologia, I.P. (FCT) abre concurso para atribuição de Bolsas de Investigação para Doutoramento ao abrigo do Regulamento de Bolsas de Investigação da FCT (RBI) e do Estatuto do Bolseiro de Investigação (EBI), nas suas atuais redações. Além das candidaturas em todas as áreas científicas e com trabalho de investigação a desenvolver em instituições científicas e académicas a serem submetidas na linha de candidatura geral, é aberta uma linha de candidatura específica para bolsas de investigação cujos planos de trabalho decorram parcialmente numa ou mais entidades não académicas. A FCT reforçará assim em 2023 a ligação entre os planos de trabalho desenvolvidos em ambiente académico e o tecido empresarial e social, numa aceção ampla, que inclui empresas, entidades públicas, sociais, da saúde, culturais ou outras instituições de interface.

Who can apply

As Bolsas de Investigação para Doutoramento destinam-se a candidatos inscritos ou a candidatos que satisfaçam as condições necessárias para se inscreverem em ciclo de estudos conducente à obtenção do grau académico de doutor, e que pretendam desenvolver atividades de investigação conducentes à obtenção desse grau.

How to apply

O concurso estará aberto de 1 de março até às 17:00 h (hora de Lisboa) de 31 de março de 2023.

Podem candidatar-se cidadãos nacionais, cidadãos de outros estados-membros da União Europeia, cidadãos de estados terceiros, apátridas ou cidadãos beneficiários do estatuto de refugiado político.

Para concorrer é necessário:

● Residir em Portugal de forma permanente e habitual, caso o plano de trabalhos da bolsa requerida decorra,

Application

Start application

Application Period

📅 01 Mar (09:00) to
📅 31 de Mar de 2023 (17:00)

Scientific Areas

● Exact Sciences
● Natural Sciences
● Engineering and Technology Sciences
● Medical and Health Sciences
● Agricultural Sciences
● Social Sciences
● Humanities

Application

01 march 2023 (09h)
Opening of applications

31 march 2023 (17h)
Closing of applications

- 1month to apply
- 1 application for each applicant

Type, Local and Duration

- Regular Line
- Specific Line

Annual, renewable
(3 to 48 months)

Studentship in:
- Portugal
- Abroad
- Both

Recipients

- National Citizens, EU, third-party, Stateless individuals & refugee status

- Applicants that comply with the requirements for PhD studies
- PhD Students

Requirements

Not to have benefited from a PhD studentship funded by FCT

Not to hold a doctoral degree

Studentship Abroad:
Must live in Portugal

- CV in **CIÊNCIA**VITAE platform
- Synopsis of CV
- Detailed work plan
- Timeline of the work plan

- Supervisor confirms the association to the application and submits CV in **CIÊNCIA**VITAE
- Host Institution
- Application in Portuguese or English

Admissibility Requirements

- 1 motivation letter
- Representative document – applicant´s scientific/professional path (not the CV!)

- **If in a Non-academic environment:**
-Non-academic host institution + academic host institution
- At least 12 months in a non-academic institution
- 2 supervisors

Merit of the applicant	Merit of the work plan	Merit of the Hosting Conditions
30%	**40%**	**30%**
● Academic career (academic degrees) ● Personal Curriculum (CV CIÊNCIA VITAE, motivation and recomendation letters) ● Disability Bonuses	● Relevance of the object ● Scientific quality (state of the art & methodology) of the work plan ● Feasibility of the work plan	● Scientific merit and experience of the supervisor (CV) ● Justify the supervising team, the host institution and the adequacy for the work plan

Early Announcement – 2023 Call for MPP2030-FCT PhD Grants

Get your documents ready

1. Your Ciência ID unique identifier
2. An identification document (ID card, passport)
3. Certificates of qualification of the academic degrees held, specifying the final classification.
4. Your curriculum vitae (CV/resume in English), created in CiênciaVitae, saved as a PDF
5. Your PhD work plan
6. A motivation letter
7. The contact information of your host/supervisor
8. Two signed recommendation letters

Advanced Training

MIT PORTUGAL PROGRAM

MITPortugal

Closed

Specific areas

Candidates registred / eligible for a PhD Program in a Portuguese University

Research activities **leading to obtaining the academic Doctor degree in Portuguese universities**

Scholarships in the country or mixed

*The MPP2030-FCT PhD Grants will lead to the academic Doctor degree in Portuguese Universities and do not result in an MIT degree nor do they guarantee periods of research at this American institution *

Advanced Training

Carnegie Mellon Portugal

Closed

Affiliated PhD Programs → Specific areas → Candidates registred / eligible for a PhD Program in Portugal → Work plan will take place in a Portuguese higher education institution and partially at Carnegie Mellon University
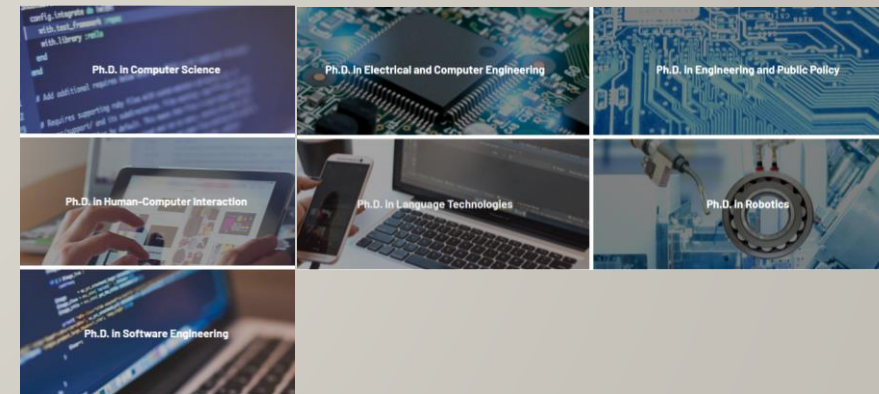

Dual Degree PhD Programs → Specific areas → Candidates must apply for a PhD at CMU

Graduates receive dual degrees conferred by Carnegie Mellon and by the affiliated Portuguese University

PhD Studentships

- All scientific areas

- **Regular Line** – Scientific and Academic Institutions (HEI, Research Units, AL, …)
- **Specific Line** – Non- academic institutions (Companies, CL, Interface Centers, Public Entities, …)

### Fellowships in the scope of protocols and partnerships

- A set of protocols with institutions dedicated to scientific research and technological development in thematic areas).

- MIT, CMU, …

Specific Programmes

- Specific Programmes for short-term advanced Training

- Fellowships Fulbright for research

- Fellowships for technology internships (NASA, CERN, ESA, …)

Advanced Training

Fellowships Fulbright

Research in universities /research centres in USA

All areas of research

- Holding a PhD scholarship by FCT

-English knowledge

-US Institution´s agreement with the project

-PhD Supervisor´s agreement with the project

-Portuguese nationality

-Don´t live in the USA or have a green card

-Never benefited from a Fulbright Program

-4 to 9 months
-Supporting before and during the stay

PhD Scholarship for students admitted to PhD programs at US universities

Admission to a US university in a PhD program

Maximum funding USD $30.000
