

HUUB (www.thehuub.co)

The HUUB sees itself as a game changer in international commerce. The simplest plug and play connection, designed to suit different needs but bringing the best practices of the market. Logistics + Tech are our focus areas. Our commitment is on the seamless connection between what is physical and what is data. The old philosophy of silos of information and reactive thinking are over. We want to bring the network thinking and the end to end visibility to your reality.

We are people and knowledge centric. Our path is innovation.
